Teachers Rock!

A teacher is someone who helps to inspire, instruct, and push students toward their greatest potential in life. A teacher sees each student as their own and, more often than not, spends numerous days (and nights) trying to think up ways of how to guide their students through life just as they do with their own children. Because of this, we want to thank each teacher for everything that you do. You go above and beyond your calling of math and science and create bonds with your students. Some of which will last a lifetime. Teachers like the ones we have in our Coop are what help keep kids going even when they maybe having a hard day, or even a hard month. You are the ones that are our first line of defense for our students and you continually go up to bat for them. We cannot thank you enough for what you do and all the hard work that you put in. Thank you for another great year!! We made it to the summer!! YAY!!
