

VOCABULARY

Definition

Vocabulary is students' knowledge of and memory for word meanings. This includes:

- Receptive Vocabulary - Words we understand when read or spoken to us
- Expressive Vocabulary - Words we know well enough to use speaking and writing

Vocabulary

This website gives information about what vocabulary is, what a child who struggles with vocabulary feels like, and what can be done to help. There is access to numerous articles from research that has been conducted.

Ideas for Home

- Read aloud. Continue to read aloud to your child even after he is able to read independently. Choose books above your child's level because they are likely to contain broader vocabulary. This way, you are actually teaching him new words and how they are used in context.
- Preview words. Before reading to or with your child, scan through the book, choose two words that you think might be interesting or unfamiliar to your child. Tell your child what the words are and what they mean. As you read the book, have your child listen for those words.
- Discuss positional words such as beside, below, under, over, etc. Make it into a game at dinner by asking your child to place his/her fork in different places in relation to his/her plate. Ex: Put your fork above your plate.
- Use a variety of words to describe feelings and emotions. For example, your child says he/she is happy. You can validate that by saying, "I'm so glad you are so joyful today! You sure look happy!"
- Trips to everyday places build vocabulary. Discuss what you are doing and seeing as you are going through the store, for example. "I'm here in the bakery. I can find donuts, cookies,

and bread.” Ask your child, “What else do you think I could find here?”

- When you read a book about a topic, ask him/her to tell you all the words related to it. Ex: If you read a book about a dog, he/she might say dog, puppies, toy, food, play, leash. Add other words to help expand upon what he/ she says.
- When you read a book, ask your child to identify categories for words he/she has read. Ex: If you read a book about pumpkins, you could put the words pumpkin, leaf, stem, and seeds into a category about the parts of a plant.
- Hot potato (version 1) - Play hot potato with synonyms (words with similar meanings). Choose a word, and then your child has to think of another word that means the same thing. Take turns until neither player can think of another word. For example, you may say, “Cold,” and your child might say, “Freezing.” Then you could say, “Chilly,” and so on. Try the game again with antonyms (opposites).
- Hot potato (version 2) - Play hot potato with prefixes or suffixes. The prefixes dis-, ex-, mis-, non-, pre-, re-, and un- are common. Common suffixes include -able/-ible, -ed, -er, -est, -ful, -ish, -less, -ly, -ment, and -ness.
- Hot potato (version 3) - Play hot potato with categories. For younger children, the categories can be simple: pets, clothes, family members. For older children, the categories can be quite complex: The Revolutionary War, astronomy, math terms.
- When you read a book about a topic, ask him/her to tell you all the words related to it. Ex: If you read a book about dinosaurs, he/she might say Tyrannosaurus Rex, paleontologist, herbivore, carnivore, fossil. Add other words to help expand upon what he/she says.
